

**BIOSITE SECURITY ADVISORY (AAGS-BIOSITE-SA-2021-001 – version 1)****Severity level – informational****17<sup>th</sup> December 2021****Apache Log4 critical vulnerability issue****Overview:**

Safety and security remain at the core of what we do as a company. Accordingly, we continuously monitor, assess, and optimise our protocols to ensure the safety and security of our users and technology. Biosite Systems Ltd has investigated the vulnerability (CVE-2021-44228) related to the commonly used Java logging utility Apache Log4j disclosed on 9<sup>th</sup> December 2021. This investigation followed our Product Security Incident Response (PSIR) Policy to identify affected products, determine what mitigation steps should be taken, and notify affected customers. Biosite Systems Ltd immediately initiated an investigation assessing any potential implications for our customers.

We have not found that the vulnerability impacts our products. While our product investigation is complete, we will continue to monitor the threat environment and update this advisory if the situation changes.
